Annual Per Capital Disposal

Employees

Total Number of Employees: 636

Explain who was included in this number and how was this employee number calculated.

Human Resources Department is where I ascertained the employee numbers. I contacted the Maintenance Supervisors for Employee numbers in the outlying areas. Caltrans Dist. 2 "employees" are full time normal 40 hour reporting workweek. Caltrans also employs permanent intermittent employees up to 1500 hours per year, retired annuitants up to 960 hours per year, student assistants on a limited term part time basis.

Non-Employee Population

Total number of non-employee population: 3798754

Population Type: Visitors

How was this population number determined?

*Dist 2 "visitor" numbers are calculated with visitor sign in logs at both buildings. The rest area numbers are calculated with mechanic vehicle/axle counters and averages, and compiled by the Division of Traffic Operations. At times rest areas are closed for portions of the year being updated/renovated. Note: These traffic counters have no way of determining how many people are in each vehicle. All personal vehicle trips 1.63 is being used in this report based on Travel Survey Research Technology from the Bureau of Transportation Statistics (2001)
Explain who was included in this number and how was this employee number calculated*

Disposal

Total amount disposed: 940.19 tons

Total transformation: 0.00

How was this disposal number determined?

Amounts of materials disposed were determined by a variety of methods. For materials, which were disposed of, the primary source for documents was to extrapolate by determining the approximate average weight of the material in the weights of the C&d debris the construction contractor supplied Caltrans with the information. Weight conversion charts from the CIWMB were used to convert volumes to tons. Annual Results

Annual Results

	<u>Employee Population</u>		<u>Non-Employee Population</u>	
	<u>Target</u>	<u>Annual</u>	<u>Target</u>	<u>Annual</u>
Per capita Disposal Rate (pounds/person/day):	710.50	8.10	0.00	0.00
Per Capita Transformation Rate:	142.10	0.00		
Calculated Disposal Rate (pounds/person/Day):	--	8.10		

Questions

What types of waste are still thrown away (not reused, recycled, or composted)?

Pavement markers, treated posts ad blocks, wood/cleared vegetation, asphalt concrete, misc. garbage, asphalt

What difficulties or obstacles have you had with finding ways to recycle, reuse or compost these types of wastes?

n/a

Programs

Recycling

- Beverage containers
- Plastics (#3-7)
- Carpet
- Cardboard
- Newspaper
- Office paper (white)
- Office paper (mixed)
- Confidential shredded paper
- Copier/toner cartridges
- Scrap metal
- Wood waste
- Sludge (sewage/industrial)
- Tires

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

<https://secure.calrecycle.ca.gov/SARC/AnnualReport/Reports/Default.aspx?AnnualReportID=1463>

Date Generated: October 9, 2017 3:16 PM

Page 14 of 43

Construction materials/debris

Beverage containers, Plastics (#3-7), Cardboard, Newspaper. Office paper (white, Mixed) are thrown into recycle containers and picked up curbside by Waste Management services. Confidential shredded paper is picked up by shredding services. Copier / toner cartridges are shipped prepaid to toner cartridge recycle center. Scrap metal is picked up by local recycler. Wood waste pallets are taken to local power generation plant. Sludge is picked up by Hazmat disposal company. Tires are disposed of per policy. Café has been closed. & rendering is no longer picked up with a local rendering service.

Material Exchange

Nonprofit/school donations
Internal property reutilizations
State surplus (accepted by DGS)

Schools on the Donee List are my number one priority. I try and stay in contact with them regarding IT equipment that we are getting ready to surplus out because its obsolete and no longer needed by our agency (computers, printers etc..). We also donate other items to eligible Nonprofit Organizations. Transfers between different Caltrans ? units internally is a common practice when the equipment becomes obsolete and we no longer have any use for it.

Waste Prevention/Re-use

Reusable pallets
Electronic document storage
Intranet
Reuse of office furniture, equipment & supplies
Reuse of packing materials
Double-sided copies
Email vs. paper memos
Electric air hand-dryers
Remanufactured equipment
Rags made from waste cloth or reusable rags

Warehouse pallets are reused, travel back and forth between warehouse and Maintenance units on a regular basis. Electronic document storage is used for quick research and reference to projects and historical files. Intranet is a source of information to be viewed by departmental employees only. Re-use of office furniture, equipment & supplies is a common practice at Caltrans until items become obsolete. Packing materials, boxes are re-used by our mailroom and warehouse. Double-sided copies are used when practical for less paper consumption. Memos are mailed out to employees rather than sent out by paper for more efficiency. Electric air hand-dryers are provided at our rest areas for less water waste. Remanufactured equipment is purchased for cost savings. Rags are picked up by a vendor cleaning service and are reused.

Green Procurement

Recycled Content Product (RCP) procurement policy

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

<https://secure.calrecycle.ca.gov/SARC/AnnualReport/Reports/Default.aspx?AnnualReportID=1463>

Date Generated: October 9, 2017 3:16 PM

Page 15 of 43

Staff procurement training regarding RCP/EPP policies

SABRC requirements and/or SABRC reporting requirements in FISCAL

(SABRC) Recycle Content Product reporting in 11 categories is ongoing statewide. SABRC Reporting has been getting about 75% participation. All Executive Staff and Supervisors have been real supportive in the past year.

Training and Education

Dedicated Recycling Staff (Existing or planned for 2017.)*

Signage (signs, posters, including labels for recycling bins. Existing or planned for 2017.)*

Employee training (Existing or planned for 2017.)*

Adequate number and condition of receptacles (Existing or planned for 2017.)*

Web page (intranet or internet)

Office recycling guide, fact sheets

Other (explain in Agency Program Notes below)

We already have a dedicated Recycling Coordinator. Signage (signs, posters, including labels for recycling bins) Informational emails including do's and don'ts for workplace recycling activities. Curbside recycle guide books distributed. A new webpage <http://www.calrecycle.ca.gov/> is being added to our intranet website for all staff access, this will help better inform our suppliers, customers and community on our efforts to reuse, recycle, compost, and buy recycled products.

There are adequate recycle containers staged in common areas throughout the building provided by Waste Management for curbside pickup. According to Waste Management Supervisor, Redding being such a rural area organic food waste and food soiled paper currently goes straight into the landfill.

Organics

Organic Materials Generated at this location:

Green Waste

Landscape and Pruning Waste

Amount of Materials Generated:

Less than two cubic yards of solid waste per week

Determination Type:

Other

Talked with maintenance worker and station engineer regarding the level of organic material generated yearly. They are the two staff members that do the work around the District Office site.

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <http://www.calrecycle.ca.gov/StateAgency/Reporting/>

Page 16 of 43

Reuse and Waste Prevention Programs for these materials:

Other	Very limited from landscape. Landscape crew comes in once a year and prunes the trees. They chip the branches and then use the mulch in different areas within the District.
-------	--

How are you diverting your organic materials at this location?

<u>Diversion Category</u>	<u>Diversion Method</u>	<u>Explanation</u>
Green Waste or Landscape and Pruning Waste	None. Please explain why.	Very limited green waste and landscape waste. Turf is installed and drought resistant landscape throughout the District Office. What little waste there is produces is thrown away in the green waste can and the city hauls it away. Landscape crew once a year and prunes the trees. They chip the branches and then use the mulch in different areas within the District.
